

Dahlias - Living Fireworks

2019 is the YEAR of the DAHLIA!!

Did you know Dahlias are the National Flower of Mexico? Be prepared to learn about Dahlia tubers to plant in your garden to create a spectacular fireworks of bloom through your summer/fall season. When to plant them, where to plant them, and how to plant those beautiful dahlias will all be discussed this evening.

Carol Cichorski and her husband Mike 'found' dahlias 18 years ago and their life has not been the same since. They plant about 400 tubers in their basement in February with 65 of them going to their own garden, a 1/2 acre lot. Carol is past-president of the Elk Grove Garden Club and Mike is past president of the Central States Dahlia Society. She speaks regularly at the Chicago Flower and Garden Show, is an avid gardener, and a blogger.

Come share their dahlia passion and find out how to grow dahlias, too!
