THE WINE-MAKERS

Interest Among Growers Increasing.

The Association Now Controls Nearly Ten Million Gallons-The New Directors.

There was quite a large attendance of the members of the California Wine-makers' Association at the meeting which was held yesterday morning at the rooms of the Board of

Trade. H. Bendel presided.

According to the reports of the committees and the opinions expressed by members the association will in the near future be upon an exceptionally sound basis in accordance with the plans which have been formulated. As it

is now the association is composed principally of the dry-wine men and they are making every effort to induce the sweet-wine men to join in a body. The latter are as yet holding

every effort to induce the sweet-wine men to join in a body. The latter are as yet holding off, but they have agreed that if the association can control 10,000,000 gallons of wine they will come in and assist the association in every possible way. The provise contains the restriction that the 10,000,000 be obtained outside of Los Angeles and Fresno counties.

It was reported that up to date the association will be added to the control of 9,250,000 gallons of wine which had been guaranteed, and that the prospects were good for securing the other 750,000 gallons. Sonoma and Napa counties have come in strong in the movement inaugurated by the association, but it was reported Santa Clara County has been backward and has not represented itself as well as was expected. Alameda County, which lagged for a while, came in at the end with a considerable showing, but it was not as large as anticipated, and under the influence of the arguments of the executive committee it is expected that the county, as well as Santa Clara, will come forward with the wine that is being held back. The committee's report showed also that the objects and interests of the association are growing in favor throughout the interior, The matter of the selection of a board of nine directors was also considered. At a caucus held by the counties the following persons were recommended: Napa County, John H. Wheeler; Sonoma County, B. W. Paxton; Alameda County, W. B. Rankin. For directors-atlarge the following were suggested: H. Bendel, P. C. Rossi, D. M. Delmas, F. A. Wex. F. P. Drexler. The confirmation of the directors rests with the wine-growers. Messrs. West and Drexler are supposed to represent the sweet-wine makers, and should they decide not to affiliate with the association the pfaces of the two gentlemen named will be filled by others. others.

The meeting then adjourned subject to the call of the chairman.

OAKLAND - It seems that after all Councilman Manuel was right in his charge that the city of Oakland had paid a third-class price for a fourth-class La

partment. Manuel wrote to several Eastern citles for dimensions of third and fourth-class La France engines and received replies from Omaha, Chicago, New York and Philadelphia. The Mayor of New York wrote that that city had fifty-eight La France engines, and the figures of the Mayor are such as to disprove entirely the claims made by Agent Hayes, while they also proved that Oakland has been paying for something she never received.

Post and Powell streets on Monday last had last evening all disappeared. There was not even one mince be left, to say nothing about a turkey. Everything had been consumed by the swarms of customers which pounced down upon the helpless lady managers and their assistants all day yesterday.

The market has been a great success. Never before has the society met with so much encouragement. The members declare that mey have held some pretty profitable entertainments, but none of them are to be compared with their latest effort. The kindergarten cause has this time been given an advertising which it has never hitherto received. People have patronized the market during the week who were entirely ignorant that there was such a thing as a Helping Hand Society. It has also given the organization a prestige before the public.
