

Name: PETER LIU

Website: http://oaklandwiki.org/Peter_Y._Liu/

1. Motivation -- Why did you choose to run for City office?

To bring world peace to this world using the "Community Empowered Safety Plan" as commanded by God.

1. New police chief will readily issue conceal carry permit to lawful city business owners, their workers or residents age 21+ who have clean background - Reality is the police can't protect them neither in peacetime nor a riot.

2. For every person caught with an illegal gun (stolen, serial scratched off, ineligible felon, etc.) obtain search warrants ASAP for their residences to get more illegal guns, find fingerprints on those guns, match in FBI databases for suspect straw purchasers for more potential arrests.

3. Install mandatory surveillance in medium and high crime areas. Surveillance footage will be accessible real time via internet to lawful city residents with login and password.

4. New policing strategy involve more community participation. Each officer will setup and advise a neighborhood watch that has about 7 to 25 volunteer members led by a team leader voted by the members. They will meet once a month to discuss issues affecting the neighborhood and the officer will be present as needed to give advice. Once the city declares an emergency, all neighborhood volunteers will be notified to prepare for best course of action to protect themselves or neighborhood which includes evacuation orders.

5. Start a business center to teach small businesses entrepreneurship to city residents. "How to brainstorm a business suitable to the individual, how to make a business plan, obtain a business license, market their services or products, etc."

2. Program and Priorities -- Elected office provides the opportunity to proactively lead by placing new ideas on the agenda for consideration and development. What are some specific ideas you intend to pursue if elected? What do you believe are the main priorities for the City?

"CESP5" (Community Empowered Safety Plan #5)

CESP5version1.pdf (PDF of game rules, print and sell it for \$5 or \$10 to strangers, test if you have what it takes to be a businessman)

A game for people who want to be Rich. Playing the game teaches by experience: leadership, honesty, teamwork, responsibility and integrity.

created by Rags-to-Riches multi-millionaire Peter Y. Liu

Game Rules

1. Choose 7 or more people, preferably people you trust. Give them the game rules. Set a location where to have a meeting if they want to join in the game.
2. At the meeting, each person introduce themselves, their name and their phone number and email address. Each person write down the information. Take 10 minutes to brainstorm a business idea and write on a paper. EXAMPLE
3. Each person takes turn to share their idea to the group.
4. After all the ideas are heard, each idea is put to a vote by the group. Person with the best idea is the founder and President of a company, the rest are co-founders, then they vote on who will be the treasurer, secretary, etc.
5. Then the group makes up a business plan, to answer Who, What, When, Where and Why. Who are the company leaders? What is the company name and what does it do? When will they do it? Where is the company located? Why are they running this business?

How to win the game? You win as a team, you win when the company profits off the idea and proceeds are split according to the hours you've put in.

How to lose the game? You lose as an individual, you quit, you got voted off the company because you didn't contribute, stole money or lost trust due to unethical behavior. Your reputation will suffer according to the seriousness of your offense.

What if the company didn't make a profit? Then your group rethink the ideas, vote on it, maybe vote on another leader, maybe change the business name, adjust the business plan then retry.

Print the game rules and sell it for money, it will test your business acumen. Time yourself for 3 hours to see how many you can sell. If you sell it for \$5.00, you can claim it is 50% off sale. In 3 hours, see how much money you earned.

3. Qualifications -- Please give a brief summary of your background and qualifications for the office of City. If you are a current City Government elected official, what issues can you point to in your time as an elected official that have had a positive impact?

I am a service connected Army war veteran. Under the trials set by God, I went from being poor at age 24 to being a multimillionaire at age 33. When I came back to Oakland in 2004, there was no jobs for me as a journalist. I tried for two years searching in futile attempts. Everything I was taught in the public schools and the University of California did not prepare me for the real world, I had to work from scratch, creating companies and failing two businesses before I found one that works for me, being an insurance agent. As an insurance agent, I've spoke to people as young as 16 years old newly licensed drivers to 70+ year old seniors who have massive wealth.

From all I learned to create my own system of practical education call CESP5 so that all who follows it will led to success.

4. Local groups -- Are you affiliated with any of the active Oakland groups? Such as TOLA, Make Oakland Better Now, Block by Block, Wellstone Democratic Renewal Club, GO Public Schools, OCO, or any other. Describe your involvement and why you feel this group is worthy of your support.

NONE.

5. Local activities -- Other than local politics, are you involved in any other Oakland based community activities that you would like to share with us? This can range from volunteering in your school to being in your church baseball league.

I volunteer for University of California, Santa Cruz for recruiting activities and help Oakland High Alumni association with their career day for graduating high school seniors.

6. Budget -- If you were on council for the next budget in 2015 how would you act differently from the council members dealing with the budget in 2013? What do you think is the cause of the current budget crisis?

Inefficiency, fraud and abuse of the retirement pension system.

7. Youth -- Describe the condition of youth in Oakland? What would your priorities for youth be for Oakland government and how would they get implemented and paid for?

Youth in Oakland are directionless. Their education is non practical. I am a product of OUSD, I went to Bella Vista Year Round, Edna Brewer and Oakland High. I've used less than 5% of what was taught there, even those basic 5% on math I could of easily learned myself at a local library. Public education would be obsolete when people follow my program CESP5, it is self-education by real life experience.

Because of CESP5, there would be many people who aspire to be successful and wealthy, from middle schoolers to seniors. Regardless of their background, they'll participate as leaders of one of thousands of newly created companies and they will see those companies rise from imaginery ideas to reality. They will feel power and influence in their community because they will meet and get to know many people in their communities, creating bonds that emerged as the result of their business interaction. Communities will get stronger in mind, spirit and body because they'll be working hard to achieve success in their new roles. With leadership comes freedom of thoughts and the experience of power to change lives. No longer will people be in bondage to a mere job, for they break the chains of cycle of employment and unemployment and step into being free citizens with true knowledge and ability to create the wealth they aspire to.

8. Police -- How do you think our community policing is going and what are the next steps? Describe the current relationship between the residents and the Oakland Police. Do you suggest

any changes? Do you support Restorative Justice programs and how should the city be involved, if at all.

Community policing and Restorative Justice is something created out of thin air and it is not practical. What is practical is an armed citizenry able to fight terrorist and rioters. When I accessed the U.S. military secret network SIPR in 2003, I know for certain Muslim terrorists are operating in the Bay Area since at least 2000. These sleepers are operating within the normal confines of society, take specialized jobs in the electricity, water sanitary, security and law enforcement. When the time comes, they will poison the water system, cut off phone networks and electricity. These sleepers could very well be running for public office. These are cold calculating killers and they actively seek new Muslim converts in prison because this evil cult conforms to raping women, little boys and girls. They'll even marry girls as young as 7 to be sex slaves, that is how perverted Muslims are. This evil cult pretends to be a peaceful religion, only fools would believe them. In every country Muslim moved to, they start all kinds of evil. In China, just few days ago dozens of these Muslims got together, armed with knives went on a stabbing rampage killed a lot of people. Same thing is going to happen here, not with knives but with AK47s. A quote from Sen. Dianne Feinstein acknowledging that these people carry U.S. passports: <http://news.yahoo.com/could-islamic-militants-iraq-bring-fight-america-221727036.html> Also, Pope Francis urged an armed response by a professional military to handle the extremists in Iraq. The clear message here is: don't be a pussy and arm yourselves. If you're not ready to defend your family, your homeland and the U.S. Constitution, then don't stand in the way for those who will.

9. Development Projects -- What are your thoughts and views about the West Oakland Army Base, The upper Broadway-Valdez Triangle, Oak to 9th and other projects?

Extra unused public space should be converted to public housing for rent on the cheap. These new houses will use sustainable materials such as Earth adobe, shipping containers, long term tents, etc.

10. Police Misconduct. What are your thoughts and how do you feel Oakland should deal with it? How would they get the Oakland Police past the current oversight under Judge Henderson?

As mayor, I'll put out an executive decree stripping any enforcement by the corrupt federal government judgeship oversight. Judge Henderson is an unconstitutional dictator and a complete failure to serve the public interest on his fail oversight experiment, he needs to held responsible for this failed experiment. An arrest warrant for the judge for overstepping his authority if he attempts to usurp the executive branch.

11. Housing & Gentrification -- Increasing rents, dislocation, and gentrification have been in the news. What policies do you advocate to assure that Oakland tenants are protected and that Oakland remains an economically and racially diverse city?

Tenants are already protected by tenant rights law. Currently, many tenants are abusing their landlords, using every possible means to stay until they are evicted by the Sheriff. Not only did they willfully destroy the premise prior to leaving, the courts' monetary judgement against

tenant are almost never enforced. This corruption needs a speedier solution. I will installed a court primarily to decide on tenancy issues within 2 weeks, this step will release the clogged judicial system for more important issues. Also, I will use all public lands available to create habitable living spaces, even if it meant government sponsored tent cities with fuctional utilities, renting will be very cheap at those places.

12. Environment -- What do you think the Oakland City government should be doing about the environment?

Convert public parks to fruit, vegetable growing plots rentable to residents, like minifarms. Residents can sell or trade their their fruits and vegetables.

13. Satisfaction of Residents -- How do you think the average resident feels about city government? How would you rate the satisfaction level?

Average residents feel the government is corrupt, ineffective and provides no guidance.

14. Accountability -- How do you propose making yourself accountable and accessible to the citizens of Oakland?

I am accessible, but I must warn people, I am fully armed at all times. I am combat veteran with bloods on hand.

15. Do we need an Oakland Progressive Alliance akin to the one in Richmond, and if so, who should be members?

No. What we need is an armed populace.

16. Governance -- What kind of relationship could you have with other office holders? Who do you see as a working majority on council and who can you work with?

None. I am not their friend. I am there to instill fear. If other office holders overstep their ethnics, take bribes, etc, they'll know me as Overseer Liu.

17. Endorsements -- Who has endorsed you so far? Who do you expect to endorse you? Who do you endorse in the other City races? Include your #2 and 3 choices for your own race and note that this year the City races are Mayor, Council seats, School Board seats and City Auditor.

God has endorsed me.

18. Campaign Funding -- How much money do you currently have for this race? How much money do you plan to raise? Where will the money come from? Describe sources of financial contributions for your campaign that you would refuse to accept (if any).

I will use less than \$1,000 to defeat all other candidates. I accept no donations whatsoever.

19. Checks and balances -- How do you view current the relationship between the Council and Mayor? Any comments on the same question for the Auditor and City Attorney? Are there any changes they would propose to the city charter?

I view the council as corrupted, incompetent and too pussy to do the right thing. We need strong leaders, those who can defend the U.S. Constitution against enemies foreign or domestic. What we have now are pussies who talks about gun control (anti-Constitution 2nd amendment) , they are inevitable victim of crimes.

20. Money in elections. -- Does Oakland need campaign finance reform? If so, what kind?

Money corrupts the integrity of government officials. All elections should be funding by the candidates themselves. Asking around for donations are akin to asking for bribes, money is money.

21. Anything Else? -- Is there anything else you would like us to know about you?

Here is another 50 questions people asked about me on this website:
http://oaklandwiki.org/peter_Y_Liu/

Yes or No questions (follow with an explanation if you want to add one)

-- Do you support the renewal of Measure Y? Don't Know.

-- Do you support the minimum wage proposal? I want people to aspire to be multi-millionaires like me, using CESP5.

-- Are you in favor of a police commission? No. Those are by far useless.

-- Do you support Dan Kalb's proposal on oversight and transparency? No. The Mayor should be the primary oversight, then secondary citizens with the open record of government accessible by City Clerk. That is why electing an honest person is crucial. We already have an "ethnics commission" that is totally corrupt.

-- Are you in favor of receiving public complaints against police officers at the Civilian Police Review Board? No.

-- Would you vote for using eminent domain to abate foreclosure crisis? No.

-- Do you support Ranked Choice Voting? Yes.

-- Would you support Proportional Representation? No.

-- Do you support diverting people from prosecution if they participate in a restorative justice program? No.

-- Do you support Community Choice Aggregation? Don't know what the heck it is.

-- Would you vote to allow more grey water systems? Don't know what the heck is a grey water.
