

**Six Bits For Repairs**  
**In 12 Years**

**On a Fuller & Johnson Farm Pump Engine**

Recently we published a letter from Mr. L. B. Poindexter of Black Rock, Ark., which was printed in the factory catalog. Here is the letter we have just received from Mr. Poindexter:

**FIRST NATIONAL BANK**  
**L. B. Poindexter, President.**  
**Black Rock, Ark.**

**Joe Lyons Machinery Co.**  
**Little Rock, Arkansas.**

Some days back I noticed your ad in the Gazette, of the Fuller & Johnson Farm Pump Engine, which you followed by a letter from me as to its merits.

This is to say that the letter you printed was written so long ago that I had forgotten all about it, but the Fuller & Johnson Farm Pump Engine about which that letter was written is today sitting where it was then and pumping just as it did then. During the 12 years that this engine has pumped all the water to run my private water works and water my stock. I have never been out but six bits for repairs on it, and to all appearances it is just as good today as it was 12 years ago.

I do not know you, but give you this unsolicited letter because of the merit of this engine.

L. B. Poindexter.

**Send for Catalog.**

**Joe Lyons Machinery Co.**  
**ALL KINDS OF FARM AND ROAD BUILDING MACHINERY**  
112 to 120 North Louisiana St. Little Rock, Ark.
