

WEEKLY ADVERTISER  
POWELL-TAN ARKS  
WEDNESDAY, APRIL 11, 1890

**GOLDEN PRIZE.**  
We specially call the attention of our readers to the advertisement of Messrs. Becket & Co., in an earlier column. We have specimen copies of the Golden Prize in our office to be seen at all times, and we feel safe in saying that every family will be richly rewarded for the money paid for this paper. Besides, each subscriber is entitled to a gift, which of itself, may equal fifty times the cost of the paper, and gift and the paper both will surely fill dull care and pave the way to future fame and glory. There is no "Peter funk" in this, and those who wish to patronize the fine arts and possess a valuable gift, will call at this office. Subscriptions are taken here in view of a club. There is danger in delay.

**These Vases.**—We have received from kind friends many presents, tokens of regard for ourselves and our enterprise, all of which have found green spots in memory, with good time cannot destroy it. It is our good fortune this week, to acknowledge a present from two of our fair patrons, in the shape of a pair of elegantly gilded china vases, each with their complement of lovely roses, flowers and emblematical twigs. Such tasteful compliments from the gentler sex, arouse in us sweet memories of loved ones at home—now far away—and add new charms to life's lonely path, enkindling the white, bright hopes for the future. Were man to undertake an enterprise without the encouraging smiles of woman, what hope could he have of success? And with them what can he not accomplish!

**And then, the firmly settled "ill woman,"**—these vases are fixtures in our mansion; these flowers are engraved from our hearts, and that noble feeling which prompts the fair giver to consider our claims, gives a new dimension to our bosom, which the sternness of time cannot erase. Long life and a cup full of happiness to our fair patrons.

**The Powell-Tan Advertiser,** the only currency worth more than three cents, will be published for you at a special rate of 10 cents per copy, if you will send us a check for \$1.00, or a note for the same amount, payable to the order of the Powell-Tan Advertiser, 100 N. 2nd St., New York, N. Y.

**Who Killed the Smith?**  
The coroner's jury, which returned its verdict on the murder of William Smith, one of the men engaged in the drunken row in town last week, in which Marion McFarland was shot, has since killed his brother, a few miles east of this city. On last Friday morning, Sally Burnett, the deceased, had taken from said William a gun with which it was feared he might do mischief, and had hid it. The gun belonging to a third person. He followed her as she was returning home from the house of a relative near by, and as they passed a new clearing near took up a limb or pole six feet long, and using both hands he struck her with it on the head, fracturing her skull in a most shocking manner. She never spoke after receiving the blow, but lingered until about 3 o'clock on last Sunday morning, when she died.

**Another sister and some other persons** who believe, were in company with the man, and witnessed the deed. The man was charged for murder in the town of New York.

**Again we did among our exhortations,** the resurrected bones of the "White River Democrat," under the care and direction of one old friend and townsman, J. C. Shook, Esq. Glad to see it—hope friend Shook may have a good time of it—glad to hear of his moral reformation—always thought him right side up. The "Waterville Balance" wants to know where James Crittenden Shook got his Democracy—having so recently been an American! We hope the Balance will not press this enquiry—its a very delicate subject—changed on account of the "late panic," and we see no reason why *Jeans* should be an exception.

**The "Smithville Plaidcenter"** has been purchased by Dr. Z. P. McAlexander, and will be conducted by him. We are informed, under the same colors as those hoisted by the former Editor, J. W. Townsend. We wish the Doctor every pecuniary success in his new vocation, and most heartily extend to him the courtesies of the profession.

**Our town this week has been visited** by but few of the planters from the country, which furnishes us good evidence that they are delving in that mammoth bank for gold and silver, which never yet surrounded. The bank of all banks—our dear earth. The weather has been cool and pleasant, affording all advantage for a good days work. We wish our farmers a rich and abundant harvest.

**KILLED HIS OWN SISTER.**—William Burnett, one of the men engaged in the drunken row in town last week, in which Marion McFarland was shot, has since killed his brother, a few miles east of this city. On last Friday morning, Sally Burnett, the deceased, had taken from said William a gun with which it was feared he might do mischief, and had hid it. The gun belonging to a third person. He followed her as she was returning home from the house of a relative near by, and as they passed a new clearing near took up a limb or pole six feet long, and using both hands he struck her with it on the head, fracturing her skull in a most shocking manner. She never spoke after receiving the blow, but lingered until about 3 o'clock on last Sunday morning, when she died.

**More Villains.**

GENERAL NEWS

**The great Nevada**—The Nevada legislature has just passed a bill to amend the constitution of that State, so as to give the people the right to elect their representatives to the legislature. The bill was passed by a large majority, and is now before the governor for his signature.

**The Virginia Penitentiary**—The Virginia Penitentiary, which is now being reconstructed, is expected to be completed in a few months. The new building will be a model of modern penitentiary architecture, and will be capable of accommodating a large number of prisoners.

**The banishment of Newberry**—The banishment of Newberry, Wisconsin, has been presented as a measure by the grand jury of the district. The banishment is based on the fact that Newberry has committed several crimes, and is considered to be a danger to the community.

**The number of members of the Mormon Church** is estimated to be 480,000, scattered over various parts of the world. The church has been growing rapidly in recent years, and is now one of the largest religious organizations in the world.

**Alex. C. Bullitt, Esq.** of Louisville, who is now traveling in Europe, has purchased Italian sculptures to the amount of \$20,000. The sculptures are of great value, and are expected to be a great addition to the collection of the Louisville Art Association.

**The Atlanta mail was stolen** from the up-train on the Georgia Railroad, near West Point, on Saturday night. The thief, it is supposed, secured considerable booty, and made his escape.

**A duel took place at West Point, Ga.** on the 8th inst., between Ben Lane, a lawyer, and an editor of a democratic paper at Marion, Ala. The weapons used were rifles.

**The coroner's jury** which returned its verdict on the murder of William Smith, one of the men engaged in the drunken row in town last week, in which Marion McFarland was shot, has since killed his brother, a few miles east of this city. On last Friday morning, Sally Burnett, the deceased, had taken from said William a gun with which it was feared he might do mischief, and had hid it. The gun belonging to a third person.
